# Introduction

The Society for the Protection and Improvement of the Arabian Horse in Lebanon (S.P.A.R.C.A), which is the governing Authority for registration of Purebred Arabian horses in Lebanon, is pleased to present the complete Lebanese Arabian Studbook Volumes I to V.

This special combined Volume is the first publication of the Lebanese Arabian Stud Book Volume V. It also includes for historical interest a reprint of Volumes I to IV, which were originally published between 1996 and 2004 respectively. These volumes contain the records of the horses with the registration numbers 1 - 168.

The horses entered in the new Lebanese Arabian Stud Book Volume V have the registration numbers from 169 to 381. They include entries for all foals born in Lebanon up to the end of the year 2013, together with entries for all imported horses. This combined studbook also contains detailed lists of exported horses, together with an obituary list of those registered horses that are known to have died.
